

IDONA®

” THE SOUL
OF A PLACE IS ITS
INTERIOR ”

IDONA PHILOSOPHY

IDONA is a Slovak furniture and interior manufacturer with a successful 30-year history mainly in exceptional technical and design solutions. Let yourself be pampered with uniqueness of detail and constant innovation dependent only on your taste. Sophistication, individuality and exclusive details attract you. Taste dominates the space. Pleasant, right?

1989... // The story of IDONA begins in 1989 just three days before 17th November. Today, like then, we want to be that step ahead, and we know how to do it...

1990... // The 90s are characterized by successful implementation in the „office and bank“ segment, thanks to the professionally managed blend of traditional carpentry craftsmanship with emerging new standards. Production is continuously supplemented by CNC technologies and consultancy in the so-called space plan service.

2000... // At the turn of the millennium, IDONA employs more than 50 people and has carried out many successful transformation projects in the banking sector. Our brand and quality are regularly praised by participants at domestic and foreign exhibitions (Nitra - SK, Cologne - DE). We extend our activities to the hotel and restaurant interior segment.

2004... // We are ISO 9001: 2000 certified in the area of „Design and manufacture of furniture and interior fittings.“ In 2007, we become the holder of the ISO certificate according to the new ISO 9001: 2008 standard.

2009... // Providing a comprehensive service has proven to be an elixir to overcome the emerging market crisis. By optimizing production processes (lean and efficient production) we even increase our activities and sales in the hospitality segment. The result is new hotel references on the Slovak market.

IDONA becomes an authorized supplier to the automotive importer Škoda Auto Slovakia.

2014... // We actively enter foreign markets – Austria, Croatia, Germany. BusinessNews – partners and customers are regularly informed electronically about our activities and successful projects. IPS System (Idona Project management Services) – we defined and implemented a higher level of customer relationship management.

HIS TO RY

HOTEL

A pair of dark sunglasses with brown lenses is resting on a round, light-colored table. The table is positioned in front of a large window that offers a view of a city with buildings and a river. The scene is softly lit, suggesting a calm, urban environment.

IDONA®

REALISATIONS **HOTEL**

IDONA was one of the first companies on the Slovak market to realise their projects in a comprehensive way and today is the respected provider of the so-called Contract Furniture for several multinational and domestic clients. We provide the fusion of professional communication in the line of architect and investor (or other service provider) with production.

REALISATIONS **OFFICE**

The equipment of each office must meet the client's needs and requirements across multiple planes. Today's office combines aesthetic, functional and communication solutions. In the preparation process, we analyse the client's needs and create an effective and inspiring environment. Our experience of the banking sector and the knowledge of ergonomics have been combined to show that even the feeling of being at work can be a pleasure.

IDONA®

REALISATIONS **PRIVATE**

An important factor in the case of private contracts is mutual trust at the level of „customer - supplier“, but also at the level of „supplier - subcontractor“. Establishing correct relationships is crucial for a supplier. It is impossible to guarantee the successful execution of the contract to the client if we personally do not know the personnel who will be involved in it. That's why we pay full attention to correctness at all levels of communication.

The background of the entire image is a close-up, high-resolution photograph of a wood surface. It shows a complex, organic pattern of concentric and wavy growth rings in various shades of brown, from light tan to deep, almost black, charred-looking tones. The texture is highly detailed, with visible grain and some small imperfections or knots.
